

Recommendation Letter

For

Mr. Craig Garrison

I have known Mr. Garrison for almost a year as a colleague and had the pleasure of working closely with him as the Curriculum Coordinator. Whenever I think of Mr. Garrison as a colleague, three words come to mind: creative, friendly and caring.

Mr. Garrison served as the Assistant Principal of the Secondary school and he is someone who clearly is in command and has extensive experience and knowledge of the best educational theories and practices. He is truly a man of ideas and someone who can turn schools around. School administrators are either maintainers of the status quo or creators with vision. Craig definitely falls in the second category.

Throughout his time of service at IKNS, Mr. Garrison has proven again and again that he is willing to do whatever is necessary to help students overcome the challenges they may face.

Mr. Garrison is an experienced educator but most importantly, he is also a genuine teacher who cares, an educator who will make special arrangements to help weak students beyond his official duties.

I have no doubt in mind that Mr. Garrison will be a real asset to any school he chooses to join.

Sincerely,

Ayman Zanoun  
Curriculum Coordinator
